ENVIRONMENT AND SUSTAINABILITY POLICY

Facility Plus recognizes that adverse effects on the community, environment and natural resources must be minimized to safeguard the health and safety of the public.

To achieve this objective, Facility Plus will observe and comply with all applicable environmental laws, including, without limitation, those which relate to:

- a) Obtaining and maintaining required environmental permits, approvals and registrations, as well as complying with all applicable operational and reporting requirements;
- b) The identification, handling, removal, transportation and disposal of hazardous materials used by Service Provider;
- c) Monitoring, controlling, treating and sanitizing air emissions, waste water and solid wastes.

Facility Plus will conduct all its operations in such a way as to minimize impact upon the natural environment and prevent any release of hazardous substances and shall:

- a) Seek opportunities that promote the efficient use of resources and energy, as well as clean and low energy solutions;
- b) Utilize eco-friendly designated products where feasible or, in the alternative, a product that minimizes any impact on the environment;
- c) Obtain prior approval for all Hazardous Materials brought on-site and will make applicable Safety Data Sheets ("SDS's") available at all times to Clients;
- d) Only use Hazardous Materials in compliance with Applicable Laws and that are required in the ordinary course of providing the Services;
- e) Assume sole responsibility and liability for any Hazardous Materials that it brings onto the Client Facility in its provision of the Services;
- f) Comply with appropriate waste disposal methods and procedures designated by the appropriate party and the Applicable Laws for all Hazardous Materials;
- g) Provide suitable equipment, facilities and precautions necessary to prevent the discharge of contaminants into the atmosphere, any body of water or land areas;
- h) Not proceed with any work where asbestos is known to be present at the Client Facility without analysis and a work plan prepared by a certified company.

Service excellence since 1987
